AUSTRALIA—East coast.

Torres strait, Inner Route—Uncharted rock.

No. 31 (first publication)—The Portmaster, Brisbane, has given Notice (No. 20 of 1911) of the existence of a rock carrying a least depth of three (3) feet at L.W.S.T. one cable North-east from the rock already indicated on the chart, and which lies 1½ cables East of North Barnard Island.

As the rock at present shown on the chart is usually taken to be the outermost danger off North Barnard Island, mariners, when navigating in this locality, would do well to take due notice of the danger now reported.

The Commander of the *Sea Lark* also advises that the channel between North Barnard Island and the mainland is extremely narrow, and fringed on both sides with very foul ground to the extent that its use is not encouraged.

AUSTRALIA—East coast.

Torres strait, Inner Route—Uncharted rock.

No. 31 (second publication).—The Portmaster, Brisbane, has given Notice (No. 20 of 1911) of the existence of a rock carrying a least depth of three (3) feet at L.W.S.T. one cable North-east from the rock already indicated on the chart, and which lies 1½ cables East of North Barnard Island.

As the rock at present shown on the chart is usually taken to be the outermost danger off North Barnard Island, mariners, when navigating in this locality, would do well to take due notice of the danger now reported.

The Commander of the *Sea Lark* also advises that the channel between North Barnard Island and the mainland is extremely narrow, and fringed on both sides with very foul ground to the extent that its use is not encouraged.

AUSTRALIA—EAST COAST.

Torres strait, Inner Route—Uncharted rock.

No. 31 (third publication).—The Portmaster, Brisbane, has given Notice (No. 20 of 1911) of the existence of a rock carrying a least depth of three (3) feet at L.W.S.T. one cable North-east from the rock already indicated on the chart, and which lies 1½ cables East of North Barnard Island.

As the rock at present shown on the chart is usually taken to be the outermost danger off North Barnard Island, mariners, when navigating in this locality, would do well to take due notice of the danger now reported.

The Commander of the *Sea Lark* also advises that the channel between North Barnard Island and the mainland is extremely narrow, and fringed on both sides with very foul ground to the extent that its use is not encouraged.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 60 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1912), are republished :—

PART I.

CLOSING OF PORTS.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that local or other circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (2), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (2), Part II, of this Notice.

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

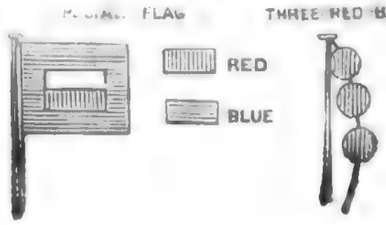
(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (4), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

ADMIRALTY PUBLICATIONS.

***True** bearings to be introduced.*

No. 61 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 2 of 1912), are republished :—

Notice is hereby given that, on and after the date of this Notice, TRUE bearings will be introduced as soon as practicable in all Admiralty Publications.

Details of the new system are as follows:—

(*a*) On charts:

A new pattern compass is already being gradually introduced which enables True Bearings to be laid off on the chart in addition to Magnetic Bearings as at present. (*See* diagram overleaf.)

The compass consists of two graduated circles, clearly separated from each other.

The outer circle is a True compass, graduated from 0° (True North) to 360°, measured clockwise.

The inner circle is a Magnetic compass, graduated in points and in degrees from 0° to 90° as heretofore.

The bearings of leading and clearing marks, etc., will be given both True and Magnetic, and a note to this effect will be placed in the title of the charts. (*See* overleaf.)

Example.—The bearing S. 40° W. true, with a Variation of 12° Easterly, will be shown thus: 220° (*S. 28° W. Mag.*)

(*b*) In Sailing Directions:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise; and a note to this effect will be given in the Title-page, in the Advertisement, and in the page immediately preceding page 1 of all volumes of Sailing Directions. The variation will continue to be given on each page as at present, so that Magnetic bearings may be obtained when required.

This alteration will be introduced gradually.

(*c*) In Notices to Mariners:

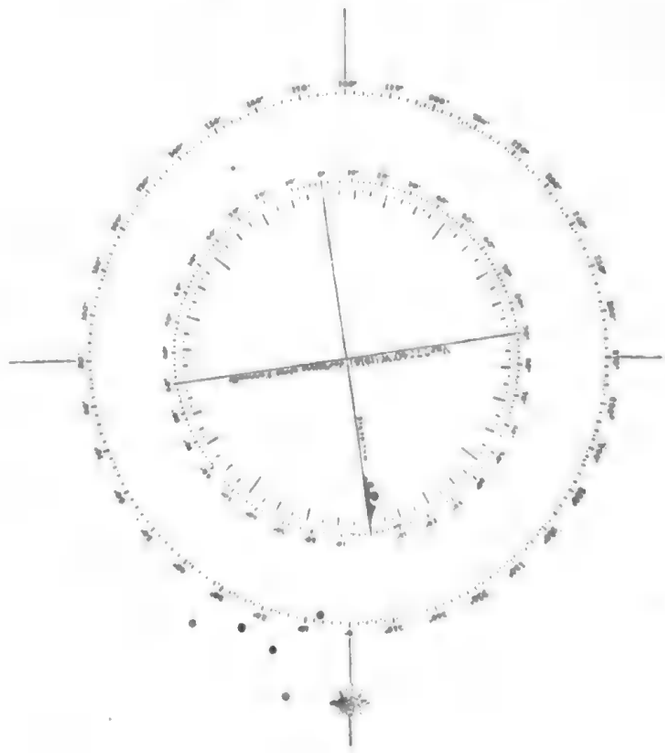
All bearings will be given both True and Magnetic in a similar manner to that adopted on charts, the necessary alteration having been now made in the heading of the Notices.

(*d*) Lists of Lights:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise.

On each page of the Lists of Lights in which this alteration has been carried out, a footnote will be placed stating that all bearings are **TRUE FROM SEAWARD.**

New Pattern Compass.



Addition to title of Chart.

Bearings are given both True and Magnetic thus: 298° (N. 54°. W. Mag.).

NEW ZEALAND, SOUTH ISLAND—QUEEN CHARLOTTE SOUND.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 60 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1912), are republished :—

PART I.

CLOSING OF PORTS.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that local or other circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (2), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (2), Part II, of this Notice.

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

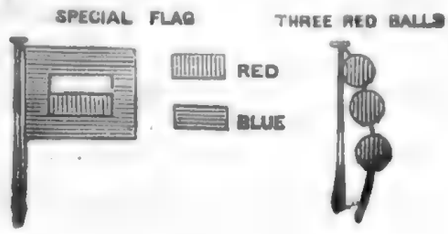
(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (4), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

ADMIRALTY PUBLICATIONS.

***True** bearings to be introduced.*

No. 61 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 2 of 1912), are republished:—

Notice is hereby given that, on and after the date of this Notice, TRUE bearings will be introduced as soon as practicable in all Admiralty Publications.

Details of the new system are as follows:—

(*a*) On charts:

A new pattern compass is already being gradually introduced which enables True Bearings to be laid off on the chart in addition to Magnetic Bearings as at present. (*See* diagram overleaf.)

The compass consists of two graduated circles, clearly separated from each other.

The outer circle is a True compass, graduated from 0° (True North) to 360°, measured clockwise.

The inner circle is a Magnetic compass, graduated in points and in degrees from 0° to 90° as heretofore.

The bearings of leading and clearing marks, etc., will be given both True and Magnetic, and a note to this effect will be placed in the title of the charts. (*See* overleaf.)

Example.—The bearing S. 40° W. true, with a Variation of 12° Easterly, will be shown thus: 220° (*S. 28° W. Mag.*)

(*b*) In Sailing Directions:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise; and a note to this effect will be given in the Title-page, in the Advertisement, and in the page immediately preceding page 1 of all volumes of Sailing Directions. The variation will continue to be given on each page as at present, so that Magnetic bearings may be obtained when required.

This alteration will be introduced gradually.

(*c*) In Notices to Mariners:

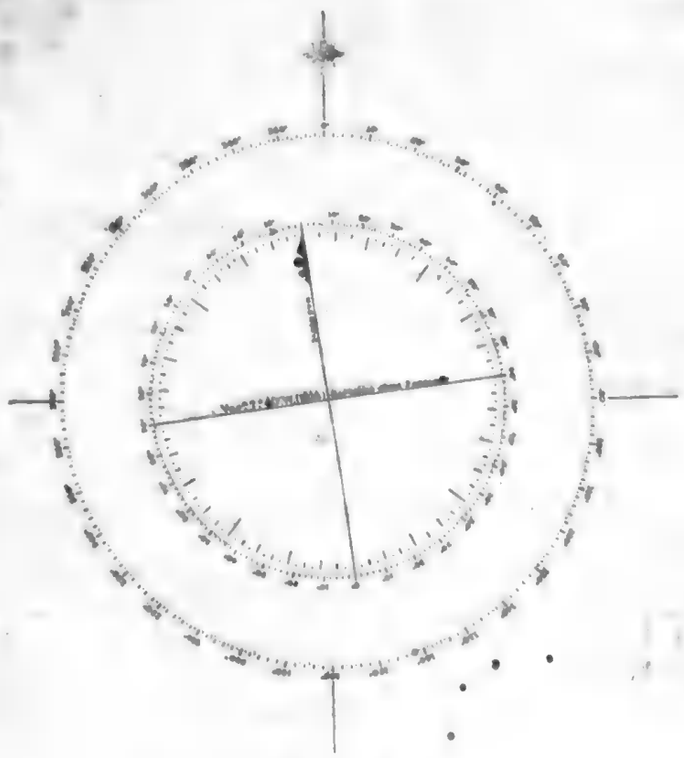
All bearings will be given both True and Magnetic in a similar manner to that adopted on charts, the necessary alteration having been now made in the heading of the Notices.

(*d*) Lists of Lights:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise.

On each page of the Lists of Lights in which this alteration has been carried out, a footnote will be placed stating that all bearings are **TRUE FROM SEAWARD.**

New Pattern Compass.



Addition to title of Chart.

Bearings are given both True and Magnetic thus: 298° (N. 54° W. Mag.).

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 60 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1912), are republished :—

PART I.

CLOSING OF PORTS.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that local or other circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (2), Part II, of this Notice and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (2), Part II, of this Notice.

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

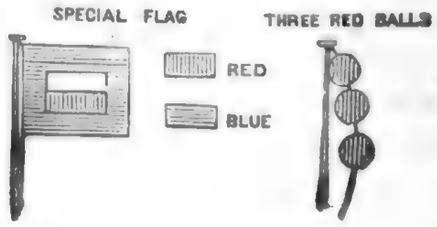
Examination Service.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (4), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.
Also, three red vertical balls if the port is closed.



By night the steamer will carry—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

ADMIRALTY PUBLICATIONS.

True bearings to be introduced.

No. 61 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 2 of 1912), are republished:—

Notice is hereby given that, on and after the date of this Notice, TRUE bearings will be introduced as soon as practicable in all Admiralty Publications.

Details of the new system are as follows:—

(*a*) On charts:

A new pattern compass is already being gradually introduced which enables True Bearings to be laid off on the chart in addition to Magnetic Bearings as at present. (*See* diagram overleaf.)

The compass consists of two graduated circles, clearly separated from each other.

The outer circle is a True compass, graduated from 0° (True North) to 360°, measured clockwise.

The inner circle is a Magnetic compass, graduated in points and in degrees from 0° to 90° as heretofore.

The bearings of leading and clearing marks, etc., will be given both True and Magnetic, and a note to this effect will be placed in the title of the charts. (*See* overleaf.)

Example.—The bearing S. 40° W. true, with a Variation of 12° Easterly, will be shown thus: 220° (*S. 28° W. Mag.*)

(*b*) In Sailing Directions:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise; and a note to this effect will be given in the Title-page, in the Advertisement, and in the page immediately preceding page 1 of all volumes of Sailing Directions. The variation will continue to be given on each page as at present, so that Magnetic bearings may be obtained when required.

This alteration will be introduced gradually.

(*c*) In Notices to Mariners:

All bearings will be given both True and Magnetic in a similar manner to that adopted on charts, the necessary alteration having been now made in the heading of the Notices.

(*d*) Lists of Lights:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise.

On each page of the Lists of Lights in which this alteration has been carried out, a footnote will be placed stating that all bearings are **TRUE FROM SEAWARD.**

New Pattern Compass.

Addition to title of Chart.

Bearings are given both True and Magnetic thus: 298° (N. 54° W. Mag.).

Channel into Port Alma—Beacons.

No. 142 (third publication).—The Portmaster, Brisbane, has given Notice (No. 1 of 1912) that on and after the 4th March 1912, the leading Beacons at Port Alma will be removed and beacons will be erected on Kazatch and Eupatoria Points. The directions now in use will then be cancelled, and the following substituted therefor :—

By Day.

Vessels proceeding to Port Alma after passing Sea Hill keep Balaklava leads in line until two similar beacons (erected on Kazatch Point) are in line; proceed with these in line until two beacons (erected on Eupatoria Point) are in line. Keep these in line until near the intersection red buoy moored off Eupatoria Point in 20 feet L.W.S., when a course may be steered to pass a black buoy moored off Kazatch Point in 20 feet L.W.S. After passing this buoy a midchannel course may be steered until arrival off the wharf.

By Night.

Vessels proceeding to Port Alma after passing Sea Hill keep Balaklava lights in line until two lights (erected on Kazatch Point) are in line (front one red, back one white); proceed with these in line until two similar lights (erected on Eupatoria Point) are in line. Keep these in line until two green lights are in line (front one erected on the Northern inside end of the wharf). Proceed with these in line, which will lead up to the wharf.

Signals to be made by vessels approaching Defended ports when inconvenienced by searchlights.

No. 168 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 274 of 1912), are republished :—

Former Notice.—No. 1 of 1912. *(This office No. 60 of 1912.)*

Any vessel approaching a defended port in the United Kingdom when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(*a*) By flashing lamp, *four short* flashes followed by *one long* flash,
(*b*) By whistle, siren, or fog-horn, *four short* blasts followed by *one long* blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of the searchlight it is impossible to know which searchlight is affected.

Note.

These signals, which will come into force 14 days after the date of this Notice, are designed to assist mariners and do not render the Government liable in any way.

Authority.—The Lords Commissioners of the Admiralty.

PHILIPPINE ISLANDS—LEITE, NORTH COAST.

Signals to be made by vessels approaching Defended ports when inconvenienced by searchlights.

No. 168 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 274 of 1912), are republished :—

Former Notice.—No. 1 of 1912. *(This office No. 60 of 1912.)*

Any vessel approaching a defended port in the United Kingdom when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(*a*) By flashing lamp, *four short* flashes followed by *one long* flash,
(*b*) By whistle, siren, or fog-horn, *four short* blasts followed by *one long* blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of the searchlight it is impossible to know which searchlight is affected.

Note.

These signals, which will come into force 14 days after the date of this Notice, are designed to assist mariners and do not render the Government liable in any way.

Authority.—The Lords Commissioners of the Admiralty.

Signals to be made by vessels approaching Defended ports when inconvenienced by searchlights.

No. 168 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 274 of 1912), are republished :—

Former Notice.—No. 1 of 1912. *(This office No. 60 of 1912.)*

Any vessel approaching a defended port in the United Kingdom when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(*a*) By flashing lamp, *four short* flashes followed by *one long* flash,
(*b*) By whistle, siren, or fog-horn, *four short* blasts followed by *one long* blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of the searchlight it is impossible to know which searchlight is affected.

Note.

These signals, which will come into force 14 days after the date of this Notice, are designed to assist mariners and do not render the Government liable in any way.

Authority.—The Lords Commissioners of the Admiralty.

PHILIPPINE ISLANDS—LEITE, NORTH COAST.
